Mac's Vertical Home Lift PL-50 & PL-72 is designed and engineered for everyday use. It is easy to operate, easy to install, and virtually maintenance free. Every safety detail has been carefully designed into the PL-50 including non-slip platform and ramp, constant pressure switches, a low platform for easy roll on/off, safety ramp (barrier) and railings all with rolled edges.

The Mac's PL-50 is sturdy enough to lift and lower 750 lbs. and will accommodate electric wheelchairs and scooters.

The Mac's PL-50 will operate in all weather conditions from -30 degrees to +120 degrees and operates on 110 VAC. The electrical system is placed well above ground and sealed against moisture.

“

From K & J Rumsey in Marshfield, WI

We are really late w/ our deep appreciation for all of your help in getting the lift put in for my mom. Kirk wanted to have the deck completely done and have some cold weather to see how it worked. It works perfect, has kept my now 94 yr old mom able to go out with us. We are so grateful!

W. Woodry in Lake Forest, CA

I cannot fully express how well made and reliable their products are and the promptness of their service on the rare occurrence of a problem. Without reservation, I recommend their lifts to anyone who has the need for such a product.

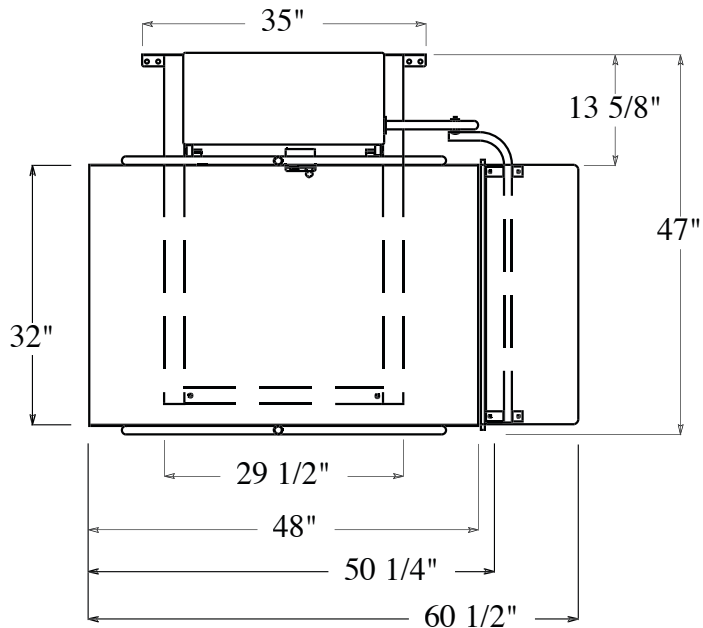

M. McCarty in Chicago, IL

We are very pleased with the new lift and feel it will help Steve very much. Thank you so much.
